ABOUT ME

Highly adaptable and self-motivated professional leveraging a background in Agricultural Economics with recent, intensive experience in Full Stack Web Development, Data Analysis, and Graphics Design. Proven ability to solve complex problems effectively , quickly adapt to new technical roles , and lead teams. Eager to contribute technical skills and critical thinking abilities to a dynamic organization.

TECHNICAL EXPERIENCE

Full Stack Web Developer | Enoch Louis Tech | *March 2025 – Present*

Key Responsibilities:

- Implemented RESTful APIs to facilitate communication between the client-side and the server-side components.
- Managed database operations, including schema design and query optimization, ensuring seamless integration with server-side logic.
- Developed and maintained scalable web applications utilizing both front-end (e.g., React, Vue) and back-end (e.g., Node.js, Python) technologies.

Data Analysis Intern | TechCrush | *March – June 2025*

Key Responsibilities:

- Collected, cleaned, and pre-processed large datasets from various sources, ensuring data integrity and readiness for analysis.
- Conducted descriptive and diagnostic analyses to identify key trends, patterns, and anomalies impacting business performance.
- Assisted in building basic predictive models to forecast future trends and support strategic decision-making.

Graphics Design Intern | GAOZU OFFICIAL LIMITED | *March 2025– December 2025*

Key Responsibilities:

- Created a range of visually engaging content, including digital banners, social media graphics, and promotional flyers, adhering strictly to brand guidelines.
- Assisted the senior design team in conceptualizing and developing mock-ups for website and mobile application interfaces.
- Prepared final design files for both digital publication and print, ensuring correct resolution, color profiles, and file formats.
